INTRODUCTION

Marwan Wareth

International Sales Manager

Bridges & Allies

My name is Marwan Wareth, and I'm honored to guide you through some of the UAE's — and especially Dubai's — most promising real estate opportunities.

With over 11 years of experience in the UAE real estate market, I've worked closely with investors, end users, and developers to match the right people with the right properties. I represent Bridges & Allies, a leading real estate agency known for its integrity, transparency, and client-first approach.

This presentation has been tailored specifically for you, with a curated selection of high-potential projects based on current market trends, ROI data, and future appreciation potential.

The goal is simple:

- To help you make a confident investment decision
- To show you the lifestyle and value these projects offer
- To give you a smooth, informative experience during your property tour in Dubai

Safe Haven Amid Global Instability

- Political stability, safety, and long-term security while many regions face uncertainty
- Ranked among the safest cities globally with a highly regulated, investor-friendly market

High ROI & Tax-Free Income

- Strong rental yields, typically 5-8% net in growth corridors
- 0% income tax and no capital gains tax
- Full ownership and 100% repatriation of profits

Residency Through Investment

- AED 2M+ investment qualifies for the 10-year Golden Visa for you and your family

Ongoing Growth & Capital Appreciation

- Backed by visionary government initiatives and mega projects (D33, Al Maktoum Airport)
- Strong appreciation potential, especially in early-phase off-plan properties

Dubai Tax vs Typical European Tax

Tax Type	Dubai (UAE)	Typical Europe (Germany, France, UK)
Income Tax on Rental Income	0% — rental income is tax-free locally	Up to 45%, significantly reducing net yields
Annual Property Tax	0% — no recurring ownership tax	0.2%-2.5%+ of property value every year
Capital Gains Tax	0% — full profit retained on resale	Up to 25-36%+ (Germany 25%, France ~36%)
Inheritance / Wealth Tax	0% on property transfers	Up to 40%+ depending on value and relation
Transfer / Registration Fees	4% one-time DLD fee	4-10% stamp duty plus notary costs

Verify your personal tax position in your country of tax residence — worldwide-income rules may apply.

Two Ways to Win in Dubai Real Estate

Dubai's population profile has structurally shifted toward longer-term, family-oriented residents, creating more predictable demand for both strategies.

Short-Term Investor (Capital Rotation)

- Focus: off-plan launches, early-phase pricing, emerging locations, exit before or near handover
- Typical timeframe: 12-24 months
- Return profile: 8-12% annualized, mainly price appreciation
- Risks: market timing, liquidity, transaction costs (DLD, agent fees)

Long-Term Investor (Growth & Stability)

- Focus: established family communities, townhouses, prime residential locations
- Typical timeframe: 5-10 years
- Return profile: 6-8% net rental yields plus 40-70% appreciation over 5-7 years in prime areas
- Upside: low turnover, tenant loyalty, compounding value, long-term visa benefits

DEVELOPER

Dubai South

TIER 1 — GOVERNMENT-BACKED MASTER DEVELOPER

Dubai South is a government-backed master developer — a big confidence booster on its own. Several residential, logistics, and commercial zones within Dubai South have already been completed and handed over, with communities that are operational and occupied today. Infrastructure, roads, utilities, and public services were delivered as planned — which isn't always the case in emerging areas.

- History of actual handovers, not just promises
- Direct government support and land ownership
- Anchor of the Al Maktoum Airport growth corridor

DEVELOPER

BARCO Development

TIER 3 — NEW MARKET ENTRANT (FIRST PROJECT)

Barco Developers is a new and ambitious UAE property developer entering the market with its first major project, Livia Residences in Dubai South. The company positions itself as a community-focused developer blending modern architecture, smart technology, and lifestyle convenience, with more than 20 curated amenities from fitness and leisure areas to co-working spaces. Livia is the first milestone in a pipeline planned to exceed 2 million sq ft across Dubai and Ras Al Khaimah.

- First project — no delivery track record yet
- Escrow registration and construction-linked plan are essential checks
- 50% due only on completion reduces buyer exposure

NEXT STEPS

Where We Go From Here

When you find interest in any of the projects presented, I'm sure you'll have many questions. I'm more than happy to jump on a call at your convenience to discuss everything in detail.

From there, I can help arrange visits to these developers during your trip, so you can see the projects first hand. Please note that many of these projects tend to sell out quickly, so timely action is recommended.

WHY WORK WITH US?

Our Commitment

With over 11 years of experience in the UAE property market, I know the ins and outs — what works, what doesn't, and where the real opportunities are.

We don't just work for you like a typical agent — we treat your investment like it's our own. We care about building a long-term relationship, not just closing a quick sale. We stick around to help manage your property and make sure it keeps growing in value.

And we don't take any commission from you. Our only goal is to guide you honestly to the best option — whether it's your dream home or a smart investment.

Thank you
